## Warsaw Claims Kiev Is Taken; London Denies

Fierce Fighting Is Reported on a 180-Mile Front; 25,000 Prisoners, 120 Heavy Guns Are Captured

### Reds Shoot Down Women

News Causes Riots in Moscow; Populace Demand a Change in Government

LONDON, May 4.—The announcement by the newspapers in Warsaw that the Poles have occupied Kiev is unfounded, says a dispatch to "The London Times" from Warsaw.

The Poles, however, have taken Fastov, about forty miles southwest of Kiev on the railroad, and are continuing to advance, the dispatch adds.

WARSAW, May 3 (By The Associated Press).—Polish forces occupied Kiev Sunday, according to extra editions of the newspapers here to-day.

General Pilsudski, commander-in-chief of the Polish armies, led the troops into the city, the newspapers say.

Kiev is not mentioned in the latest communication issued by the War Office, which announces the capture by the Poles of the railroad junction sixty kilometers southwest of Kiev.

The communication asserts that fierce fighting continued along the 180-mile front, from the Pripiet marshes to the Dniester River, that 25,000 men have been captured since the Polish drive began and that still further prisoners have been taken, but have not been counted. It is added that 120 cannon, 500 machine guns, three complete radio stations, 100 locomotives, three armored trains and one entire aero squadron have been captured by the Poles.

12,000 Ukrainians Surrender  
An official statement says that 12,000 Ukrainian soldiers who had been fighting under the Bolshevik banner have surrendered.

The Bolshevik forces had made a stand on the Dniester River in opposing the Polish efforts to take Kiev. General Pilsudski's men advanced on the city from three directions.

Riots and uprisings among the soldiers are reported to have occurred in Moscow upon receipt of news of the Polish successes.

The reports say there are increasing demands for a change of government.

Chinese mercenaries were used by the Bolsheviks to stave off the eastern sweep of Polish and Ukrainian forces, said Saturday's official communiqué. A number of Chinese have been captured, it was announced.

Winnica and Zhmerinka, approximately fifty-two miles southwest of Kiev, were retaken by the Poles and Ukrainians after three days of fighting. The Reds have been pushed across the Bug River.

The Bolsheviks defended the towns stubbornly, owing to their railroad importance and the great warehouses of food. Neither Winnica nor Zhmerinka was much damaged, most of the fighting occurring in the country districts.

Women Held as Hostages  
It is reported that when the Polish advance began the Bolsheviks arrested hundreds of Polish women and children in Winnica, holding them as hostages until just before the Poles arrived. The reports add that the Bolsheviks also shot and killed a number of women who taught the Polish language in the schools.

The Poles and Ukrainians are meeting the most stubborn resistance on the entire front since their advance began, but they are making headway gradually, according to Sunday's communiqué on the fighting.

"The fighting is particularly severe southwest of Kiev and in the Bug River region," the communiqué says. "A series of rivers northwest of Kiev is hindering the advancing forces and the infantry and artillery are having difficulty in keeping up with the cavalry."

"In fighting just east of Bendzowz Ukrainians in a night captured 140 Bolsheviks and then took Bialopol. Prince Stanislas Radzwill, personal adjutant to General Pilsudski, was

### Supreme Council May Be Made Permanent

PARIS, May 3.—A London dispatch to "Le Temps" to-day says that in Supreme Council circles there is an inclination to insure continuation of the work of the Supreme Council by making it an international government organization. It is even probable, the dispatch declares, that the admission of German delegates to the council would be considered, Russian delegates also being admitted sooner or later.

Thus, according to the dispatch, an international governmental organization composed of the Prime Ministers of each state would exist outside the league of nations.

captured by a shell from an armored train during a Red counter-attack which was designed to take Malin from Captain Radzwill.

### Capture 16,000 Prisoners

"The Poles in a flanking maneuver from the north captured Kalodwaska, with 8,000 prisoners, and also took two armored trains and ten cannon at Kalodwaska, fifty kilometers south of Berdichev. Beyond Winnica we captured 8,000 prisoners, fourteen cannon, one armored train, two sanitary trains and many armored automobiles.

### Germans Attack Poles; Two Killed; Priest Hurt

Oppeln, Silesia, May 3.—Armed with knives, revolvers, clubs and stones German men and boys attacked Poles who were holding a Sunday demonstration on the occasion of the Polish national festival, and in the pitched battle that followed two persons were killed and a score wounded, including a Polish priest.

The German security police, upon which the Inter-Allied Commission depended to maintain order, engaged the combatants, and Colonel Percival, the British commissioner, hastened to the scene. Plunging into the melee, he helped separate the fighters.

Throughout the city Germans singled out Poles, assaulted them and chased them through the streets. It was said the trouble probably would stimulate the Polish demand that the commission dismiss the German security police and recruit a police force composed equally of Poles and Germans.

### Irate Panamans Halt Auto Bearing Pershing

Anti-American Demonstration Held to Protest Fortifying of Taboga Island

PANAMA, May 3.—Several thousand Panamans marched through the streets in a torchlight parade last night as a protest against the acquisition by the United States of the major portion of Taboga Island for the purpose of fortification as a part of the Pacific defense scheme of the Panama Canal. An automobile in which General John J. Pershing was driving to a ball in his honor at the Union Club was halted by the procession and forced to return to the Tivoli Hotel.

Mobs later formed in the streets and irresponsible persons threw rocks at prominent Panama officials, a number of whom were injured. Mounted policemen, acting on orders of Mayor Boyd, charged and dispersed the demonstrators.

Major General Chase W. Kennedy, commander of the American troops in the Canal Zone, following receipt of reports of the rock throwing, ordered all American officers attending the ball to leave immediately.

From The Tribune's Washington Bureau  
WASHINGTON, May 3.—The anti-American demonstration at Panama undoubtedly resulted from a misunderstanding, Secretary of War Baker said to-day.

Discussing the occupation of the Island of Taboga, Secretary Baker said the army fortifications there were necessary and the treaty provisions assure the islanders just compensation for any damage done on land used by the government.

furnished by the National Surety Company. Captain Mitchell was held in \$5,000 bail.

No date was fixed for the trial. According to Stuart G. Gibboney, of Barber, Watson & Gibboney, attorneys for Mr. Morse, who entered a plea of not guilty for his client, it is true that in 1917 there was a negotiation to sell the vessel, but he added:

Says Transaction Was Abandoned  
"The completion of the transaction was expressly conditioned on the approval of the United States authorities. The whole matter was submitted to the United States Shipping Board, and was especially examined by Bainbridge Colby, then a member of the board. Every detail was considered and at a suggestion by the Shipping Board the transaction was abandoned. This was early in 1918. At that time the Federal District Attorney's office in New York was apprised by me of all the facts connected with the transaction."

He added that all of the books and records of the parties involved were offered for inspection to the District Attorney and his representative and many of them were actually produced.

He said Mr. Morse concluded that the authorities had found nothing in his conduct to warrant any further proceeding.

"We shall be prepared to show," he said, "that there was no purpose on the part of the parties indicted to do any wrong, but on the contrary, they undertook to comply, and thought they were complying, with not only the letter but the spirit of the Shipping Board's act that they are now accused of having violated technically. We shall actually show that there was no violation of the law on the part of any of them."

Republican Parliament Recognized by Dublin  
LONDON, May 3.—The Dublin Corporation this evening passed a resolution acknowledging "the Irish Republican Parliament's authority to undertake the carrying out of all its decrees affecting the municipal council." It was decided to send copies of the resolution to the European governments and to President Wilson and the United States Senate and House of Representatives.

COPENHAGEN, May 3.—King Christian has requested Nils Neergaard, the Liberal leader, to form a cabinet.

## Filibuster on Peace Dropped By Democrats

Underwood Calls Plan Off After a Poll of Senators; Minority Decides to Depend on Veto by Wilson

From The Tribune's Washington Bureau  
WASHINGTON, May 3.—The Administration Senators have abandoned their plan to conduct an organized filibuster against the Knox peace resolution, when that measure is called up in the Senate Wednesday, Senator Underwood of Alabama, minority leader in the Senate, announced to-day.

Senator Underwood said there would be no effort on the part of the opponents of the peace move to "talk to death" the resolution. Individual Democratic Senators may speak against the measure at length, he said, but he predicted that a vote would be had on the resolution after about ten days' discussion.

Senator Hitchcock, of Nebraska, who, as ranking Democratic member of the Foreign Relations Committee, will have charge of the fight against the resolution, proposed the plan for a filibuster, and it was his intention to delay a vote until after the political conventions had adjourned.

Senator Underwood, however, after making a poll of the Senate, decided against the filibuster. The leaders of the administration forces in the Senate admit that the resolution will be adopted, and they are now counting upon President Wilson vetoing it.

Both Senator Underwood and Senator Hitchcock predicted that the resolution will be vetoed and that the President would return the peace treaty for reconsideration by the Senate.

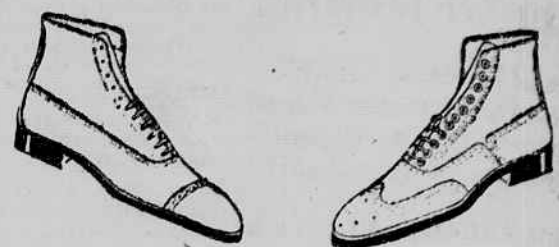

ate, with his veto message. They have had no direct word from the White House regarding the President's plans, they declared, and said they have no intention of discussing the peace resolution with the President nor of asking the Chief Executive's opinion regarding it before the vote is taken.

Senator Knox will open the fight for the resolution when Senator Lodge, of Massachusetts, chairman of the Foreign Relations Committee, calls it up Wednesday. It will have the support of all the Republicans except Senator McCumber, of North Dakota. Senator McCumber will open the fight against it and will be Senator Hitchcock's principal aid in opposing the peace move. Five Democrats, Senators Reed, Shields, Gore, Walsh, of Massachusetts, and Myers, have announced their intention of voting for it.

Chairman Will H. Hays, of the Republican National Committee, conferred with Republican Senators at the Capitol to-day regarding the treaty plank in the Republican platform. He talked with Senators Borah, of Idaho; McCormick, of Illinois; and Brandegee, of Connecticut; three irreconcilable opponents of the treaty, at length, and received their suggestions.
